READY FOR ANYTHING.

75 HP

S75 SOLIS TRACTOR

Built for serious work, the Solis S75 delivers unmatched strength, stability, and performance in the 75 HP category. Designed for demanding jobs, it features a fuel-efficient engine, heavy-duty front axle, and a best-in-class wheelbase for superior traction and balance. Whether you're handling loader work, field operations, or tough terrain, the S75 is built to power through with reliability and confidence.

SOLISTRACTORUSA.COM

Available in ROPS or Cab Versions

75 HP, 4-Cylinder Engine
Tier 4-compliant, fuel-efficient engine for serious power with lower emissions.

Best-in-Class Wheelbase
Provides superior stability and balance during heavy-duty operations.

Heavy-Duty Front Axle
Built for strength and durability when operating loaders or handling tough terrain.

High Torque Performance
Delivers excellent pulling power and efficient operation under load.

Robust, Durable Build
Designed for long-term commercial use in tough agricultural environments.

Multiple PTO Speeds
For compatibility with a wide range of attachments and implements.

Rugged. Powerful. Built for What Matters.

The Solis S75 is a premium 4WD utility tractor designed to deliver serious performance, unbeatable value, and full-feature versatility for farmers, landowners, and professionals who demand more from their equipment. Built with strength and simplicity in mind, the S75 blends modern engineering with heavy-duty components to take on the toughest jobs with confidence.

SELF-LEVELING LOADER WITH INTEGRATED JOYSTICK

Take on serious lifting and loading tasks with confidence. The Solis S75 comes equipped with a factory-installed, self-leveling front loader—ideal for moving hay, gravel, debris, or material pallets. With an impressive **3,000 lb lift capacity**, this heavy-duty loader is built for tough jobs and maximum productivity. The integrated joystick offers smooth, one-hand control and makes quick work of loader operation. The self-leveling design keeps your bucket stable and level during lifts, reducing spillage and operator fatigue.

S75: BUILT DIFFERENT. BUILT BETTER.

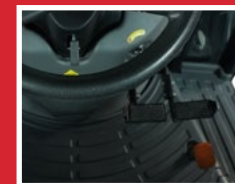

TURBOCHARGED DIESEL ENGINE

Powered by a 4-cylinder, turbocharged diesel engine engineered for reliable performance and long-term durability in demanding conditions

HIGH TORQUE MATTERS

High torque allows the S75 to pull heavy implements, handle large loads, and maintain power under resistance—making it more effective for field work, loader tasks, and tough terrain

SYNCHRO SHUTTLE TRANSMISSION

12x12 Synchro Shuttle transmission is designed to provide smooth, reliable performance for both field work and loader operations

DUAL-TASK CAPABLE

Built with dual-task capability, the S75 can efficiently operate rear and front or mid-mounted implements at the same time—delivering more productivity and less wasted time with every pass.

HEAVY-DUTY FRONT AXLE

Built with a heavy-duty front axle designed to handle the demands of tough loader work, rough terrain, and heavy implements making it designed for 4WD traction

WIDE & OPEN PLATFORM

Features a wide, open operator platform with a flat, uncluttered floor for easy entry, greater comfort, and improved visibility—perfect for long hours on the job.

**RUGGED. RELIABLE.
READY FOR ANYTHING.**

All-Around Visibility. All-Day Comfort.

The Solis S75 features a spacious, climate-controlled cab designed for all-day comfort and total visibility. With large, strategically placed windows and a wide front windshield, the cab offers a panoramic 360° view—giving you clear sightlines to your loader, implements, and surroundings. Inside, you'll find an ergonomic layout, a suspension seat, and intuitive controls that reduce fatigue and keep you in control. Whether you're in the field or on the jobsite, the S75 cab delivers the comfort and visibility you need to work with confidence and precision.

Built-In Air Compressor

Clean your tractor or fill tires on the go with the optional built-in air compressor.

THE S COMFORT PACKAGE is designed to support the operator through long, demanding hours. Every detail inside the cabin is built for ease—promoting better posture, smoother control, and a more relaxed driving experience from start to finish.

- **Easy-access arm drop** levers for quick implement control
- **Comfortable, adjustable seat** with armrests for reduced fatigue
- **Wide, spacious operator platform** for unrestricted movement
- **Durable rubber floor mat** for added comfort and vibration dampening
- **Tilt & Telescopic Steering** for Customized Comfort

SIMPLY THE BEST. BEST-IN-CLASS.

- **3,000 Lbs Loader Lift Capacity**
- **Hydraulic 3-Point Lift Capacity of 5,511 lbs.**
(Optional Upgrade to 6,613 lbs)

The Solis S75 stands out with a powerful combination of **best-in-class performance and versatility**. It delivers an impressive **336 Nm of high-end torque**, a **hydraulic lift capacity of 5,511 lbs**, and a **loader lift capacity of 3,000 lbs**—making it one of the strongest in its class. With the **largest wheelbase** and a wide operator platform, the S75 also offers unmatched stability and all-day comfort. Its **21.1 GPM hydraulic pump flow**, **superior fuel efficiency**, and **dual-task capability**—featuring **2 double-acting rear remotes** and a **self-leveling front loader with integrated joystick**—ensure you're ready for any job. Paired with a **12x12 Synchro Shuttle transmission**, the S75 delivers smooth, reliable control for loader work, field tasks, and everything in between.

WHAT IS UNDER THE HOOD?

The 4-cylinder engine delivers high torque with exceptional fuel efficiency, thanks to its low-RPM, high-durability design that ensures consistent power across all applications. Designed without a diesel particulate filter (DPF), it meets emission standards without relying on complex after-treatment systems. That means no regeneration cycles, no excess heat or burn-offs, and no added operational complexity—resulting in lower maintenance, enhanced reliability, and uninterrupted performance in every field.

- **Best-in-class torque** for powerful and consistent performance
- **Superior fuel-efficient engine** reduces operating costs without compromising output
- **4-cylinder, 4.0L engine** delivers high torque with smooth, reliable operation
- **Tier 4 Final compliant**—meets emissions standards with simplified engine design
- **Low rated RPM** enhances engine life and ensures long-lasting durability

S75

READY FOR ANYTHING

The Solis S75 is built for hard work across a wide range of demanding tasks—from pulling heavy equipment and plowing fields to cutting large acreage and hauling materials. With its high torque output, strong hydraulic lift capacity, and heavy-duty front loader, this tractor is engineered to handle tough jobs without hesitation. Whether you're working long days in the field, managing livestock operations, or tackling utility work around the property, the S75 delivers consistent performance, fuel efficiency, and operator comfort that lasts from sunrise to sundown. It's not just built to run—it's built to work and it's built to last.

S75

Solis

SOLISTRACTORUSA.COM

The Solis S75 is built for the working man—rugged, reliable, and ready for whatever the day demands. Designed to deliver serious performance in the toughest conditions, it offers the power and durability needed to pull, lift, haul, and cut without compromise. At the same time, it's engineered with operator comfort in mind, featuring a spacious cab, smooth controls, and thoughtful design that make long days in the field more manageable. From first light to quitting time, the S75 is the kind of tractor you can count on—day in and day out.

INDUSTRY LEADING WARRANTY

The Solis S75 comes with a 3-year full warranty and a 5-year powertrain warranty—one of the best in its class. This reliable protection reflects Solis' commitment to quality and shows they stand behind every tractor they build. It's coverage you can count on, season after season.
